

Goulburn North East SAP Trials

A key aspect of the new Football Federation Australia National Curriculum is the implementation of a Skill Acquisition Program to perfect and accelerate the skill development of identified players at the critical ages of 9 to 12. This is the age group universally acknowledged to be the optimal mental and physical phase in which children are able to learn motor skills.

The FFV in conjunction with the FFA will be expanding the SAP over the summer period. FFV is delighted to announce that commencement of the Goulburn North East program.

The SAP Foundation Squad will be open to players born in **2000, 2001 and 2002**.
